has gaps in its page
numbers, or doesn't
have any numbers.

We have chosen to
leave the page
numbering in the
order that Acrobat
assigns it.

Onan

**Parts
Manual**

**NH
R.V. Electric
Generating Sets**

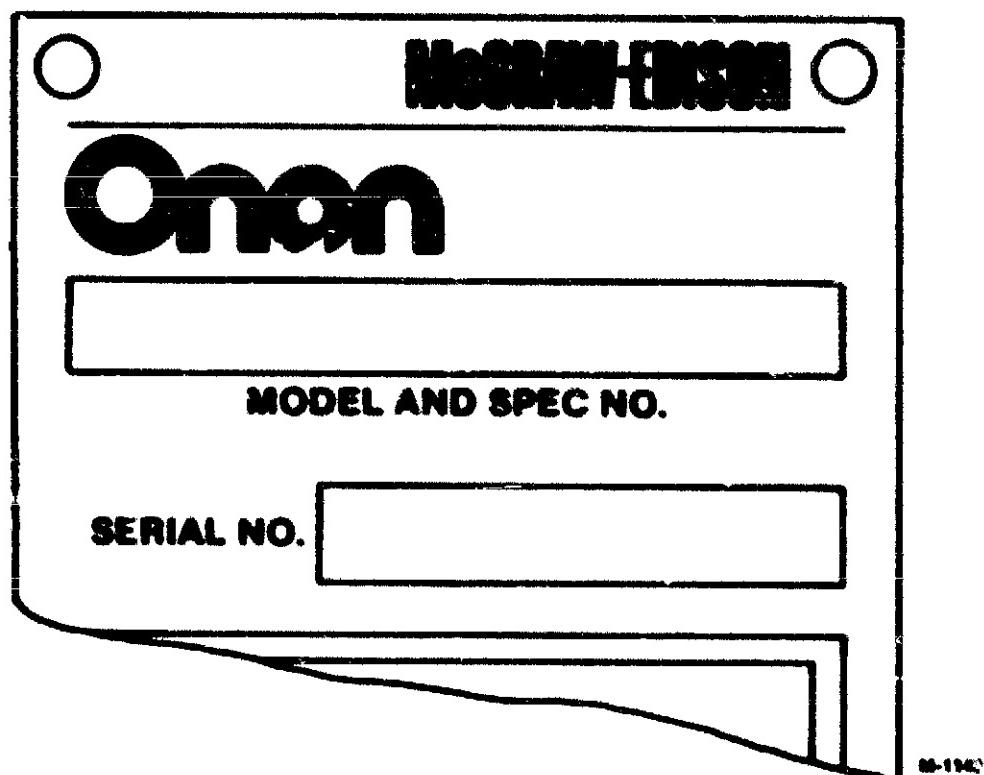

GENERAL INFORMATION

For parts or service, contact the dealer from whom you purchased this equipment or refer to your Nearest Authorized Onan Parts and Service Center.

To avoid errors or delay in filling your parts order, please furnish all information requested.

Always refer to the nameplate on your unit.

1. Always give the MODEL, SPEC NO. and SERIAL NO.

For handy reference, insert "YOUR" nameplate information in the spaces above.

2. Do not order by reference number; always use part number and description.
3. Give the part number, description and quantity needed of each item. If an older part cannot be identified return the part prepaid to your dealer or nearest Onan Parts and Service Center. Print your name and address plainly on the package. Write a letter to the same address stating the reason for returning the part.
4. State definite shipping instructions. Any claim for loss or damage to your unit in transit should be filed promptly against the transportation company making the delivery. Shipments are complete unless the packing list indicates items are back ordered.

This catalog applies to the standard NH Recreational Vehicle generator set. Parts are arranged in groups of related items. Each illustrated part is identified by a reference number corresponding to the same reference number in the parts list for that group. Parts illustrations are typical. Using the *Model* and *Spec No.* from the nameplate, select parts from this catalog that apply to your set. Unless otherwise mentioned in the description, parts are interchangeable between models. Right and left sides are determined by facing the engine end (front) of the set.

DATA TABLE

MODEL AND SPEC	ELECTRICAL DATA				
	WATTS	VOLTS	HERTZ	WIRE	PHASE
6.5NH-3CR/*	6500	120/240	60	**	1

- * - The Specification Letter advances (A to B, B to C, etc.) with manufacturing changes.
- ** - Plant is reconnectible for 120 volt, 2 wire, 240 volt, 2 wire or 120/240 volt, 3 wire service.
- The letter R in MODEL and SPEC denotes electric start with start-stop at both the set and the remote control.

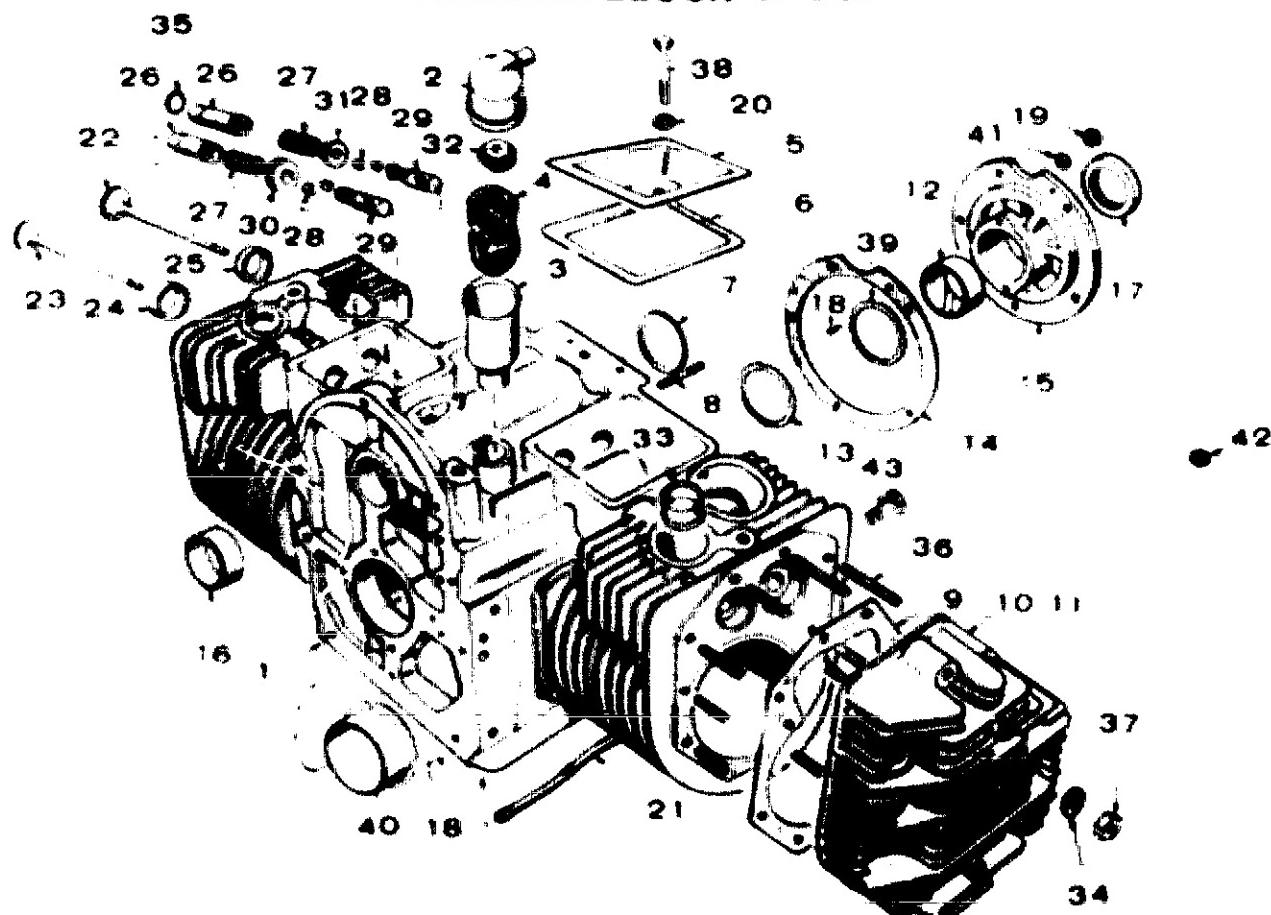

NOTE: Hertz is a unit of frequency equal to one cycle per second.

KEY NO.**(PARTS CATALOG ALSO CONTAINS COMPONENTS FOR MAJOR OPTIONAL FEATURES LISTED BELOW)**

(AC) 611-1111-01

WIRING DIAGRAM NO.

PART NO.	QTY.	DESCRIPTION	PART NO.	QTY.	DESCRIPTION
110-2340	1	Block assembly, cylinder (refer to standard cylinder block for components, except parts marked #)			
509-0168	2	#Seal, valve - intake			
110-2281	2	#Guide, valve - intake			
505-0056	1	Plug, oil drain			
505-0050	1	Elbow, oil drain			
502-0058	1	Tee, street pipe - low oil pressure switch			
104-0909	1	Flywheel			
134-2363	1	Housing, blower			
501-0015	1	Line, oil (16" long)			
517-0009	1	Button, dot (2" hole)			
134-3049	1	Scroll, air			
508-0008	1	Grommet, rubber - oil line			
201-1909	1	Rotor assembly, generator			
Note: This unit is manufactured with a spec C control. Refer to the spec C control for components, except parts marked *.					
301-3628	1	*Box, control			
301-3414	1	*Cover, control box			
302-0058	1	*Ammeter (DC)			
302-0758	1	*Meter, hour			
302-0551	1	*Voltmeter (AC)			
306-0232	1	*Relay, start - disconnect			
332-0706	1	*Block, terminal			
332-0707	1	*Strip, marker			
338-1187	1	*Harness, wiring - voltmeter			
501-0122	1	Line, fuel pump to carburetor
